

## White Paper

LEMANO Srl is an innovative start-up founded by two young entrepreneurs with the primary objective of bridging global merchants with the innovative technology of blockchain.

Currently, the company is developing a sophisticated **marketplace web platform dedicated to the buying and selling of luxury watches**, offering high-quality services at competitive prices and enabling its customers to make secure transactions using the main recognized cryptocurrencies, its own cryptocurrency called **LEMANO COIN** and traditional FIAT money.

To successfully realize this ambitious project, LEMANO Srl decided to launch an **NFT project**, which will allow it to increase its visibility within the cryptocurrency ecosystem and, at the same time, raise the necessary funds to support the company's growth and development.

### USE OF FUNDS COLLECTED

The funds raised from the sale of NFTs will be used for various purposes, including:

- 35% Marketing and Promotion
- 10% Partnerships and Collaborations
- 25% Research and Development
- 20% Administration and business operations
- 10% Liquidity reserve

The aim is to use the funds raised to grow the society and improve the services offered.

## LUXURY WATCHES MARKETPLACE

**LEMANO** is a web marketplace platform for buying and selling luxury watches. The platform offers additional services such as seller verification, watch quality control, insured shipping, payment by deposit to be released only after delivery, trade-in and cryptocurrency payment. The aim is to reduce brokerage fees and provide quality ancillary services at competitive prices. The platform will use blockchain technology to ensure future traceability of all watches purchased.

### SERVICES

- Reduction of commissions
- Possibility of payment in cryptocurrency
- Seller verification
- Product quality control
- Payment by deposit to be released after delivery
- Insured shipping
- Exchange or barter

### LEMANO COIN

Thanks to the support of entities operating on the major exchanges, our cryptocurrency **LEMANO** will be listed. The use of the Lemano cryptocurrency will allow commissions and fees to be minimized to almost zero.

### BLOCKCHAIN

The blockchain used is **ethereum**

### MANAGEMENT TEAM

**Alessandro Casoni**  
CEO - Co-Founder

**Pasquale Mistretta**  
Co-Founder

Alessandro and Pasquale, two young entrepreneurs with a profound passion for luxury timepieces, have established the **LEMANO** project. By merging the precision and elegance of luxury watches with innovative blockchain technology, they have unlocked a realm of boundless possibilities, ensuring security and transparency.

### NFT PROJECT

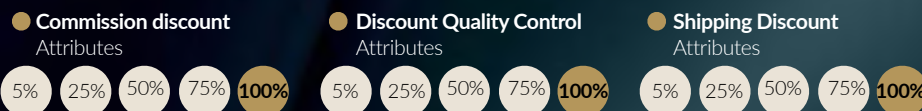

**LEMANO** is launching a project to sell NFTs with various *attributes*, including discounts on commission, shipping and quality control.

- This NFT project aims to **introduce the company** to investors in the crypto world and to create a connection with the blockchain community.
- The secondary objective of the project is **to raise funds** for the growth of the society.
- In addition, **a person drawn** from a mathematical library provided by an external organization **will be rewarded with a luxury watch**.
- All NFT holders will be guaranteed a **REWARD based on a percentage of the profits** generated by LEMANO Srl. The first 500 holders (pre-sale) will receive 2% of the annual profits as rewards, while the other 1453 holders will receive 1% as rewards.

● **HARD CAP** NO. 1953 NFT ● **PRICE** 120 USD

### NFT LEMANO PROPERTIES

There will be a **LEGENDARY** that will have all attributes with the maximum discounts. All attributes will be valid for two years from the moment the platform becomes operational.

### AWARDING OF PRIZES

In order to consolidate the link with the world of luxury watches, each collection will be enriched by the awarding of a watch to a person randomly drawn from a mathematical library provided by an external body, in order to ensure maximum transparency.

**PRIZE**  
Rolex® Submariner

If logistical circumstances permit, a company representative will deliver the prize in person.

### PURCHASING METHODS

NFTs are sold via one of two methods:

- **PRESALE** (First 500 NFTs)
- **MINT Date** (Remaining 1453 NFTs)
